

Make the Racer

1

Fold paper in half lengthwise along a center line.

2

Fold top corner down to line up with center line.

3

Flip over and repeat on other side.

4

To make a fold mark for Step #6, fold tip to edge away from the center line.

5

Open sheet and turn it over so the original center line comes up toward you.

6

Fold a top corner down across center line to the fold mark you made in Step #4. Open.

7

Repeat fold #6 on opposite side.

8

Fold top corner from Step #6 back down.

9

Wrap extra paper to other side.

Make the Racer

10

Fold "tip" down to the "V" where the edges meet the center lines.

11

Flip plane over and fold plane in half along original center line (from Step #1).

12

Fold outside corner down to center line, forming small triangle. Line up edges.

13

Repeat on opposite side.

14

Fold "wing" down so that "wing tip" extends below the center line. Repeat on opposite side.

15

Adjust wings. Fly!
